EXPERIENCE

Full-Stack Web Developer

Freelance — Remote

October 2022 - PRESENT

Frontend Tech: ReactJS, HTML, CSS, Tailwind CSS

Backend Tech: ExpressJS, NodeJS, MongoDB, PostgreSQL, Socket.io

- My work involves building websites and web apps for clients from different parts of the world and working with remote teams.

PROJECTS

Quiz App

Tech stacks: ReactJS, MongoDB, Socket.io

- App created to help teachers take quizzes remotely.
- The teacher can create a room session, add students, and can share a unique pin code or QR code with students.
- When a teacher starts the quiz, the question appears on the student screen in real-time and on the teacher's dashboard when the student answers the question.
- Here is a [link](#) to the teacher's dashboard for you to try it.

Suggest Movies

Tech stacks: ReactJS, HTML and CSS Flexbox, TMDB API

- This is a website to browse and search popular movies and view posters and trailer videos
- Implemented search using a 3rd Party REST API and used routing and pagination to load 10 movies at a time.
- Here is the [link](#) to the website.

Memory Game

Tech stacks: ReactJS, HTML, and CSS Flexbox

- Here is the [link](#) to play the game, enjoy!

SKILLS

HTML & CSS

JavaScript

ReactJS

MongoDB

OTHER SKILLS

Communication

Flexibility/ Adaptability

Problem-Solving

Teamwork

EDUCATION

McLaren College, Online

Full-stack Web Development

September 2021 - Present

Completed the modules, JavaScript Data Structures and Algorithms & Full-stack MERN courses. Read more [here](#).

International Islamic University

Islamabad, Pakistan

Bachelor in physics

Consultation App

Tech stacks: ReactJS, Express, MongoDB, PostgreSQL

- Can see the list of all doctors with their ratings, qualifications, and cost.
- On selecting a doctor, the user will get available time slots based on the date chosen and can book the doctor.
- Once the booking is made, it will appear on the Appointments page under `Upcoming Consultations`
- Doctors can also see all their upcoming consultations.
- Once the meeting's start time is passed, the doctor can click on the meeting, add their notes and prescription, and mark the meeting as done.
- Here is the [link](#) for the app
